- ☺ swiss made
- ☺ boys & girls
- ☺ Sets from 6M+
- ☺ Retail & KiGa
- ☺ LGA tested
- ☺ 14 in 1

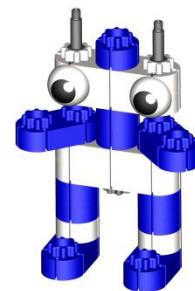

Hello, we are *Tim* and *Lea*. We have some news for you. With the new kiditec® Multicarset we build many great toys and cool mobiles.

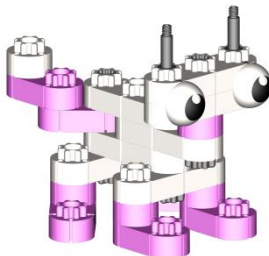

First we play with single bloxx and when we are able to put it together in the right order, then we build our first *bunny*

After that we use the screws and construct the *fanty*

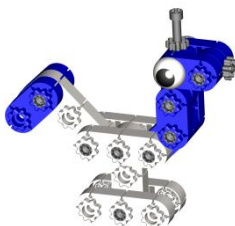

Now also the cool *robby* is on its way

Leas favorite animal is anyhow *caty*

Also *birdy*, *dogy* and *snaky* will be built with these parts.

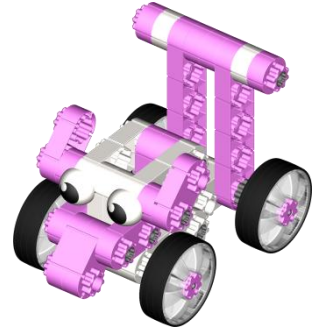

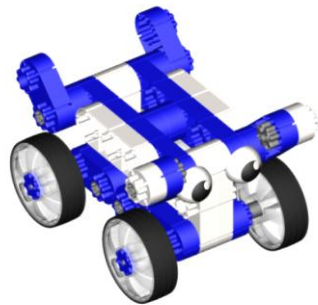

Okay, from now on we are getting *mobil*

For our little girlfriend *Zoe* we build her first walking aid

With *walky* also Zoe makes her first steps

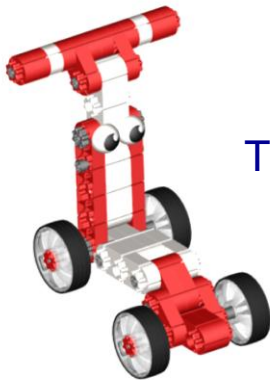

With *lorry*

also we have a lot of fun

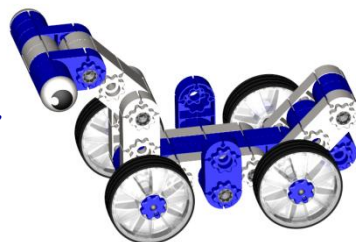

With *bögg* Zoe and Lea can stroll with her dolls and teddy-bears

The *baggy* is our first sack barrow which we can even build in two versions

With the *pully*

we go on shopping tour

Also our mom has a lot of fun with kiditec® and is helping us with building

This is the package

for boys

for girls

The red set is for everyone

Many new assembly instructions relating to the kiditec® Multicar are available on our website for downloading:
